

## WEDDING VIDEOGRAPHY

Your wedding day is the first day of the rest of your lives! A video is truly the only way to hold onto the memories, sights, and even sounds of this special day. Ask any bride and groom and they will tell you the day went by in a flash. Be sure to capture this day with the highest of quality!

Using top of the line Professional HD cameras, Nick Schale strives for perfection in creating a memorable DVD that is as crisp on your 50th Anniversary as it will be on your First Anniversary.

All packages include an edited mastered DVD of your day with a personalized label and cover. The DVD will contain menus and chapter points for easy navigation. You retain all rights to the DVD! No more paying for extra copies!

## QUALITY

All of the important moments are captured using your choice of one or two Full HD Cameras. Your video coverage begins before the wedding, and includes

- ◊ *Casual scenes of your guests arriving*
- ◊ *The Ceremony*
- ◊ *Informal clips from your photo shoot*
- ◊ *Memorable moments from your reception*
- ◊ *Interviews with the wedding party, family and friends*
